

AIRLINE SUPPORT BUILDING PUBLIC ART PROJECT RFQ QUESTIONS

The following information clarifies the solicitation.

This document reflects the questions submitted by 11:59 p.m. May 6, 2019

Question 1: Are there any design or architectural specifications that we would have access to as well as perhaps the coordinates of the location on Google maps?

Answer 1: Architectural drawings and site plans will only be provided to the artist or artist team selected for this opportunity. Proposals are not requested for this solicitation. The artist or artist team will be hired based on past qualifications and their existing body of work. This is important to our process to allow the artist to gain an understanding of the project first and then develop a site-responsive concept.

Lauren Lockhart, Arts Program Manager
